MAXIMIZE ROI WITH BEYONDTRUST UNIVERSITY TRAINING

BeyondTrust University training services are designed to maximize your investment in BeyondTrust technologies by educating your users on best practices for configuring and using our products. Superior training is part of our commitment to help you obtain the maximum benefit possible from the entire BeyondTrust solution. Our training options will give your organization the foundational knowledge needed to administer, configure, and utilize BeyondTrust for optimum performance. You can select from a variety of modular training courses to ensure your team receives relevant education.

BEYONDTRUST TRAINING FOR SECURITY PROFESSIONALS

The *Password Safe Foundations* course is designed for the security professional tasked with administering, monitoring, and reporting on Password Safe. Students learn how to install and configure Retina Network Security Scanner and BeyondInsight Console, configure BeyondInsight analytics and reporting, create functional accounts and password rules, add managed systems, set up accounts and roles, request, approve, and view recorded sessions, work with Smart Rules & Groups, schedule scans for new systems and users and onboard them, set up and configure remote apps, and troubleshoot SSH & RDP session connections.

FLEXIBLE TRAINING OPTIONS: ON-SITE, VIRTUAL OR ELEARNING

This course is available as a virtual instructor-led course or on-site at your location. The course length is two days on-site, or 15 hours over 3 days virtually. The course is led by a BeyondTrust certified instructor.

The course is also available as a self-paced eLearning.

KEY LEARNING OBJECTIVES

- **Initial Configuration** – learn how to install and configure the software suite for your environment and set up accounts and rules
- **Onboarding Systems** – discover new assets in your network and enable their management through Password Safe.
- **Session Usage** – learn to use the Password Safe console, request and approve sessions, enable session recording, and view sessions and reports.
- **Creating Workflow with Smart Rules** – manage your workflow by adding directories, users, and machines through Smart Rules.
- **Additional Configuration** – configure databases, Remote Apps, VNC, SSH Keys, and product integrations.

PASSWORD SAFE FOUNDATIONS

For Security Professionals

UNIT 1 Introduction

Product Overview
The Classroom Lab Environment

UNIT 2 Installation

LESSON 1: Review Installation Prerequisites
LESSON 2: Install the Retina Network Security Scanner (RNSS) and BeyondInsight Console
LESSON 3: Configure RNSS and BeyondInsight
LESSON 4: Configure BeyondInsight's Analytics & Reporting

UNIT 3 Initial Configuration

LESSON 1: The BeyondInsight Console UI
LESSON 2: Create Functional Accounts
LESSON 3: Define Password Rules

UNIT 4 Onboarding Systems

LESSON 1: Use Retina for Asset Discovery
LESSON 2: Adding Managed Systems
LESSON 3: Enable Discovered Systems to be Managed

UNIT 5 Requesting & Using Sessions

LESSON 1: The Password Safe Console
LESSON 2: Request and Approve Password Access
LESSON 3: Request RDP and SSH Sessions
LESSON 4: Enable Session Recording
LESSON 5: View Recorded and Active Sessions
LESSON 6: Locate Relevant BeyondInsight Reports

UNIT 6 Creating Workflow with Smart Rules

LESSON 1: Add Directories
LESSON 2: Add Active Directory Users with Smart Rules
LESSON 3: Add Machines with Smart Rules
LESSON 4: Access Domain Machines with Managed AD Account

UNIT 7 Further Configuration

LESSON 1: Configuring Databases
LESSON 2: Configuring Remote Apps
LESSON 3: Configuring Sessions for VNC
LESSON 4: Managing SSH Keys
LESSON 5: Product Integrations

ABOUT BEYONDTRUST

Bomgar is the worldwide leader in Privileged Access Management, offering the most seamless approach to preventing privilege-related breaches. Our extensible platform empowers organizations to easily scale privilege security as threats evolve across endpoint, server, cloud, DevOps, and network device environments. BeyondTrust gives organizations the visibility and control they need to reduce risk, achieve compliance objectives, and boost operational performance. We are trusted by 20,000 customers and a global partner network. Learn more at www.beyondtrust.com.
