MAXIMIZE ROI WITH BEYONDTRUST UNIVERSITY TRAINING

BeyondTrust University training services are designed to maximize your investment in BeyondTrust technologies by educating your users on best practices for configuring and using our products. Superior training is part of our commitment to help you obtain the maximum benefit possible from the entire BeyondTrust solution. Our training options will give your organization the foundational knowledge needed to administer, configure, and utilize BeyondTrust for optimum performance. You can select from a variety of modular training courses to ensure your team receives relevant education.

BEYONDTRUST TRAINING FOR SECURITY PROFESSIONALS

The *Privilege Management for Desktops Advanced* course builds on the Foundations course with advanced topics. The core training will improve your understanding of the architecture and operation of the software in your environment, as well as providing troubleshooting processes. Additional eLearning options focus on enterprise reporting options, using Privilege Management for Desktops with macOS, and managing your system using iC3.

PREREQUISITES

Students must have completed the *Privilege Management for Desktops Foundations* course before taking this advanced course for additional training and certification.

FLEXIBLE TRAINING OPTIONS: ON-SITE OR VIRTUAL

The instructor-led 8-hour core course is available as a virtual instructor-led course or on-site at your location. The core course is delivered in a single day and is led by a certified BeyondTrust instructor. Additional self-paced eLearning topics may extend your total course time up to 2.5 days.

KEY LEARNING OBJECTIVES

- **Use Cases** – learn how to apply advanced concepts to common use cases
- **Architecture and Settings** – explore key software components and take a detailed look at security settings and access tokens
- **Troubleshooting** – apply a logical troubleshooting process to resolve and understand the root cause of issues

GET CERTIFIED BY BEYONDTRUST

Participants who successfully complete Privilege Management for Desktops Advanced training are eligible to take the associated BeyondTrust Certification exam.

PRIVILEGE MANAGEMENT FOR DESKTOPS ADVANCED

For Security Professionals

CORE COURSE
