MAXIMIZE ROI WITH BEYONDTRUST UNIVERSITY TRAINING

BeyondTrust University training services are designed to maximize your investment in BeyondTrust technologies by educating your users on best practices for configuring and using our products. Superior training is part of our commitment to help you obtain the maximum benefit possible from the entire BeyondTrust solution. Our training options will give your organization the foundational knowledge needed to administer, configure, and utilize BeyondTrust for optimum performance. You can select from a variety of modular training courses to ensure your team receives relevant education.

BEYONDTRUST TRAINING FOR SECURITY PROFESSIONALS

The *Privilege Management for Desktops Foundations* course is ideal for security professionals who need to learn how to deploy, configure, and utilize Privilege Management for Desktops in their unique environment. During the course, you will learn best practices for installing and administering Privileged Management for Desktops.

Be sure to choose the course sessions associated with your desired management and deployment method, either Group Policies, McAfee ePolicy Orchestrator, or iC3.

FLEXIBLE TRAINING OPTIONS: ON-SITE OR VIRTUAL

This 8-hour course is available as a virtual instructor-led course or on-site at your location. The course is delivered in a single day and is led by a certified BeyondTrust instructor.

KEY LEARNING OBJECTIVES

- **Deploying the Software** – explains the process of installing and deploying the software
- **Configuration and Control** – teaches configuration of policies, and applying application control and content access controls.
