PRIVILEGED REMOTE ACCESS VENDOR ONBOARDING

Powered by Bomgar

MAXIMIZE ROI WITH BEYONDTRUST UNIVERSITY TRAINING

BeyondTrust University training services are designed to maximize your investment in BeyondTrust technologies by educating your users on best practices for configuring and using our products. Superior training is part of our commitment to help you obtain the maximum benefit possible from the entire BeyondTrust solution. Our training options will give your organization the foundational knowledge needed to administer, configure, and utilize BeyondTrust for optimum performance. You can select from a variety of modular training courses to ensure your team receives relevant education.

BEYONDTRUST TRAINING FOR VENDORS

When it comes to managing and controlling privileged access across hybrid environments and platforms, BeyondTrust is an industry leader with the solutions and expertise you need to securely connect to almost any device. Our focus on innovation and service excellence will improve and streamline your endpoint access to Windows, Mac, and Linux, including access from Android and iOS platforms.

The *Privileged Remote Access* course is ideal for any vendor who plans to connect to endpoints using the Privileged Remote Access Console. During this course your vendors will learn how to install the console and access remote endpoints using the consoles.

ON-DEMAND ELEARNING

This course is presented via eLearning made available 24x7 from the BeyondTrust University learning portal. Up to 15 vendor students can be signed up to complete the eLearning, each at their own pace, preparing them to access your endpoints properly and securely.

KEY LEARNING OBJECTIVES

- **Setup and Installation** – see how to install and log into the Privileged Remote Access Console, and learn about the basic features
- **Session Initiation** – learn how to access endpoints securely using BeyondTrust's patented Jump technology
- **Session Management & Tools** – understand how to screen share and use the numerous tools within screen sharing, how to use the file transfer, command shell, system info, and registry tools
- **Reporting Features** – learn how to access detailed session reports and how to use the session forensics feature

GET CERTIFIED BY BEYONDTRUST

Participants who successfully complete Privileged Remote Access Vendor Onboarding training are eligible to take the associated BeyondTrust Certification exam.

PRIVILEGED REMOTE ACCESS VENDOR ONBOARDING

For Vendors
