

ACTIVE DIRECTORY BRIDGE

BeyondTrust Professional Services deliver best practices and a cost-effective path to a successful Active Directory Bridge (ADB) implementation. Professional Services security engineers partner with customers on installation, configuration, and knowledge transfer. Our services are available in tiered packages to meet your architectural and business requirements.

Professional Services Packages – Which Is Right for Me?

Selecting the right professional services package helps to ensure a positive business outcome. Our packages are designed to fit your preferred deployment technology and project scope. We'll help you determine which tier will work best for you.

	Tier 1	Tier 2	Tier 3	Tier 4
Professional Services Criteria				
Installation of ADB client and AD components [up to the number of servers installed/accounts reconciled]	[15/300]	[50/700]	[100/1400]	[100/1400]
Simple automation of ADB Client installation using Servers Management Console (SMC)	●	●	●	●
Installation of SMC	●	●	●	●
Migrate accounts from existing environment (NIS/NIS+, LDAP, or SSSD)		●	●	●
Group policy options (settings, file ownership, etc.)		●	●	●
Advanced automation of ADB Client installation using custom scripts (DevOps)				●
Professional Services Tasks				
Installation of Active Directory components	●	●	●	●
Installation and configuration of ADB client	●	●	●	●

	Tier 1	Tier 2	Tier 3	Tier 4
Account provisioning/migration	●	●	●	●
File ownership remediation	●	●	●	●
Customization of group policy settings		●	●	●
NIS/NIS+ Anonymous Map migration		●	●	●
Assistance with reconciliation of existing group membership		●	●	●
File ownership: NFS volume server			●	●
Netgroup migration			●	●
Application integration			●	●
Security review of implementation				●
Training and Knowledge Transfer				
Provide knowledge transfer for daily maintenance of Active Directory Bridge	●	●	●	●
Provide online virtual based training to prepare for the implementation	Optional/additional costs			
Provide onsite classroom based training to supplement the implementation	Optional/additional costs			

BeyondTrust is the worldwide leader in Privileged Access Management, offering the most seamless approach to preventing privilege-related breaches. Our extensible platform empowers organizations to easily scale privilege security as threats evolve across endpoint, server, cloud, DevOps, and network device environments. We are trusted by 20,000 customers. beyondtrust.com
